

Road work continues in District 1 this week, as crews continue priming Lakeside. Upon completion, work will begin on Glover Road and Little Bear Loop. The roads will be oily and sticky, so we are encouraging drivers to please proceed slowly for your own safety.

Recycling is also expected to begin on Cache Road this week, weather permitting. It will be repaired withing two to four weeks, depending on the weather and strength of the base.

Please pay attention to signs and crews in the roads. As always, thank you for your patience.
