

Road Crews will continue work this week in east Lawton. The crews will continue the oil-and-chip process on Baseline Road (from Flower Mound Road to 75th Street), while also working on Flower Mound Road (from Baseline Road to Tinney Road).

Next week, the crews will work on 45th Street (South to Baseline Road), while working there way out to Devine Road.

Per our usual request, please avoid these roads while the crews are in the oil-and-chip process. The longer the oil can sit undisturbed, the stronger the final product. If a detour is not feasible, please slow down to 15 mph while on the marked roads. "Fresh Oil" signs will be posted in the areas drivers need to exercise caution.

We will continue to keep you updated on the progress.

You may email me at gail.turner@comanchecounty.us with any comments or questions.
