

While we are glad to get some of this rain, it has slowed down the progress of the district 1 road crews in the county. Now that the weather has passed, crews will continue rippings a number of roads in Elgin - "C" Street, "D" Street and "E" Street.

Progress on North Drive has been slowed due to the cold front. The overlay and chip process will continue when the weather permits.

As usual, thank you for your patience as we continue our efforts to make the roads safer for citizens of the county.
