

As everyone begins preparing for Thanksgiving, road crews in district 1 are working hard to repair roads for the citizens of Comanche County. This week, county workers will be repairing a bridge ½ mile east of the intersection of Oklahoma 17 and Meers-Porter Hill Road. Due to the work, the road will be closed, with a projected reopen date of Wednesday, Nov. 20. Please make plans for alternate route of travel and pay close attention to workers and signs in construction areas.

Thank you again for your patience. I hope all of you have a Happy Thanksgiving and enjoy the time spent, and turkey consumed, with your families.
